

## Description:

The Benassi 3.9HP 60cm cultivator is a fully portable Italian designed tiller suitable for both commercial and domestic use. It runs off of a reliable, long-lasting Honda GX160 engine, and has 1 forward speed and a conveniently located depth bar location at the rear for ease of adjustment.

The BL360 comes complete with heavy duty tines and can be extended from a cutting width of 60cm to 80cm by adding the additional set supplied, the end discs supplied retain any soil being cultivated so not to spill over onto the edge of a lawn and keep the soil in the path of the tines to produce a finer tilth.

The handles can be set to a comfortable working height but also able to adjustable left or right allowing you to cultivate tight against walls or fences.

Although the BL360 has a Chain and Belt transmission drive system it is not designed to cultivate virgin compact ground.

**Product Code:** BL360H

## Specification:
