

Description:

The Elite Delta Light Battery Back-up is the latest edition to the Delta Light family. The versatile base ensures stability and includes 2 power outlet sockets and integral cable management system for user convenience.

The high output 360° light distribution delivers 3600lm and in the event of unforeseen power loss the internal back-up module instantly switches over to the internal battery supply.

Part No. **DL36BB**

Specification:

- 36W 3600lm output
- Battery back-up module runs LED's at 35% light output 1300Lm in the event of power loss up to 3hrs
- Back-up module by-pass switch to prevent battery drain and light function when not required.
- 1200mm diffusor height – illuminates a standard ceiling without shadowing
- Carry handle in centre of product, perfectly balanced, and weighted base for stability
- Solid state LED technology
- CRI >80 and colour temperature of 6400K
- Fully CE / UKCA compliant and manufactured to meet IP54 and IK08.

Differentiator:

- Small footprint base, no wide tripod to trip over!
- Full 360 light distribution.
- 1 Product – 1 fleet number – easier fleet management!
- All components are manufactured from robust materials to ensure the product performs in the harshest environments

Technical:

- Voltage – 110V 50/60Hz
- Plug – 110V 16A IEC60309
- Sockets– 2X 110V 16A IEC60309
- Weight – 4.9kg
- Dims – 380 x 330 x 1200mm (LxDxH)
- Battery – Li Ion 7.4V 5.2AH
- Power setting – 2 (100% 3600lm, 35% 1300lm)

3600Lm

110V

6hrs
