

Description:

The Elite Delta Light Rechargeable is the cordless edition to the Delta Light family. The integral versatile base ensures stability and includes a secure storage box for the permanently attached charging cable.

The high output 360° light distribution delivers 3600lm and large battery capacity allows the user 100% light output for a full 8 hours!

Part No. **DL36R**

Specification:

- 36W 3600lm output
- 3 power setting allowing for extended runtimes up to 30 hours – you won't be left in the dark.
- 4 stage battery status indicator – check status before you get on site.
- 1200mm diffusor height – illuminates a standard ceiling without shadowing
- Carry handle in centre of product, perfectly balanced, and weighted base for stability
- Solid state LED technology
- CRI >80 and colour temperature of 6400K
- Fully CE / UKCA compliant and manufactured to meet IP54 and IK08.

Differentiator:

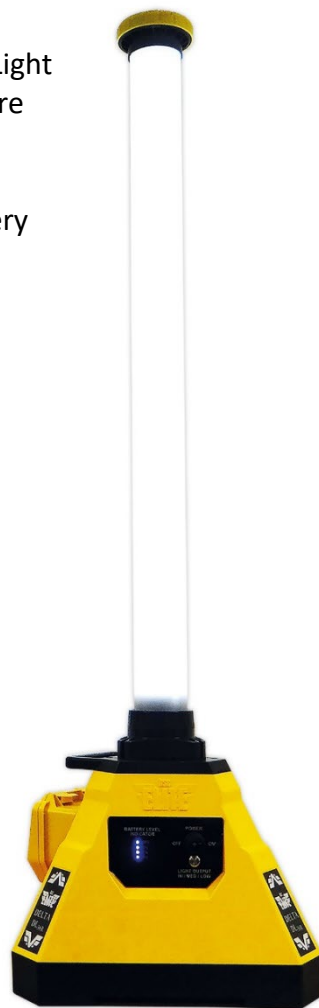

- Small footprint base, no wide tripod to trip over!
- Full 360 light distribution.
- 1 Product – 1 fleet number – easier fleet management!
- All components are manufactured from robust materials to ensure the product performs in the harshest environments

Technical:

- Voltage – 110-230V 50/60Hz
- Plug – 230V 13A BS1363
- Weight – 5.1kg
- Dims – 380 x 330 x 1200mm (LxDxH)
- Battery – Li Ion 14.4V 18.2AH
- Power setting – 3 (100% 3600lm, 50% 1800lm, 25% 1000lm)
