

Description:

The Elite Heat EH1102400W & EH2402400W is a fully powder coated metal construction heater using two Quartz Infrared heating lamp providing instant heat when required.

Ideal for workshops, garages and any industrial applications where performance and durability is required.

Using the SK15 lamp lamps with a 250mm pre wired ends. Internal bi axis safety switch for increased protection. Lightweight and manoeuvrable design for ease of use.

Product Code: EH2402400W – 240V
EH1102400W – 110V

Specification:

- Maximum 2400W heat output, half power 1200W.
- Available in both 110V and 240V variants
- 4 castors ensuring manoeuvrability, 2 of which are lockable
- 2X SK15 lamps
- Fully CE compliant.

Differentiator:

- Compact and robust design with fully powder coated sheet steel
- Instant heat, achieves full power within seconds.
- Highly polished reflector ensure maximum heat output
- Minimal assembly to save time.

Rough Service

1.2 – 2.4KW

-10°to +40°C
