SPECIFICATIONS

Item No	LEDH360
Lamp Type	150 LED SMD2835
Input Voltage	AC110-130V 50/60Hz
Rated Power	30W
Safety Level	Class I
Lamp Lumens	2800Lm
Color Temperature	6400K
LED Life Time	30000hrs
Light Head IP Rating	IP54
Lamp Size	190x220x235mm
Light Angle	360°
Working Ambient	-20°C ~ +55°C
Cable	H05VV-F 3x1.5mm ² x3M
Material	Die-casting Aluminium, Impact-resistant PC Lens, and PC base

Plug & Socket

Fitted with 110V 16A plug
110V 16A Socket
13.6Amp Current (Max 1500W)
Maximum link 20 lights
Maximum total load applied to the socket should not exceed 1500W

- ✓ 2011/65/EU RoHS Directive
- ✓ 2014/35/EU the LOW Voltage Directive
- ✓ 2014/30/EU the EMC Directive

This marking indicates that this product should not be disposed with other household wastes throughout the EU. To prevent possible harm to the environment or human health from uncontrolled waste disposal, recycle it responsibly to promote the sustainable reuse of material resources. To return your used device, please use the return and collection systems or contact the retailer where the product was purchased. They can take this product for environmental safe recycling.

INSTRUCTION

Please ensure that you read the instructions before using the LED light and that all the safety guidelines are understood. Please keep these instruction for future reference.

- User should check the light body and lens carefully before use.
- Always check that the voltage displayed on the rating plate is the same as the mains power source.
- This LED light can be mounted on a level/even surface or be hung by the hook at the bottom of the unit.
- Prior to operation, carefully inspect the light for any damage. Any part that is damaged, including the body, cable or plug, should be properly and safely repaired or replaced by a qualified electrician before the light is used.
- This LED light is of Class I construction and must be earthed.

SAFETY WARNING

- The unit must only be connected to an appropriate power supply stipulated on the rating label.
- If the external flexible cable or cord of the light is damaged, please ensure it is replaced by the manufacturer, a service agent or a similar qualified person to avoid a hazard.
- When not in use always disconnect from the power supply.
- Do not remove plug from mains supply by pulling on power cord.
- Do not dismantle, tamper with or use the LED light without the lamp cover as this maybe dangerous and will invalidate the warranty.
- Do not modify the LED light to do tasks other than those intended.
- Should the lamp get damaged unplug the unit from its power supply and allow sufficient time for the lamp to cool.
- Do not allow children to operate this light.
- Do not use in or near places such as swimming pools, ponds, saunas, bathrooms or similar locations.
- After extended periods of use the diffuser will get warm.
- Do not cover the lens of the LED when in use.
- Socket for linking a maximum of 20 Helios Lights Only.

IMPORTANT

Safe disposal of waste electrical products, batteries and lamps. Where products are subject to the WEEE Directive and depict the crossed out wheellie bin on the packaging label and/or product label they MUST be disposed of in accordance with the WEEE directive. Note that waste electrical products, batteries and lamps should NOT be disposed of with household waste. Please recycle where appropriate facilities are available. Your Local Authority will be able to give recycling advice.
